

INSTRUCTIONS

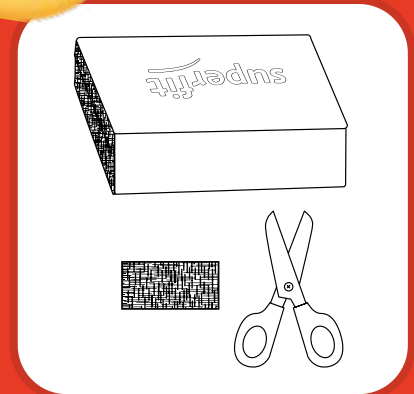

Crafting lanterns.

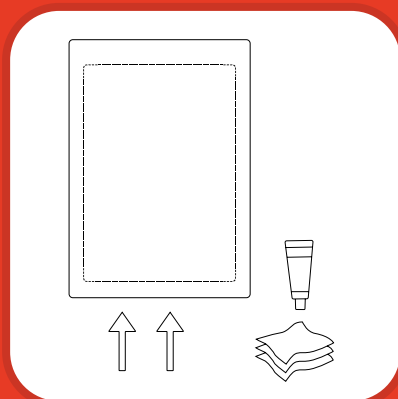

1. Use the lid and base of the shoe box as a crafting surface.

2. Cut a rectangular area out of the lid and base of the box, leaving a small margin.

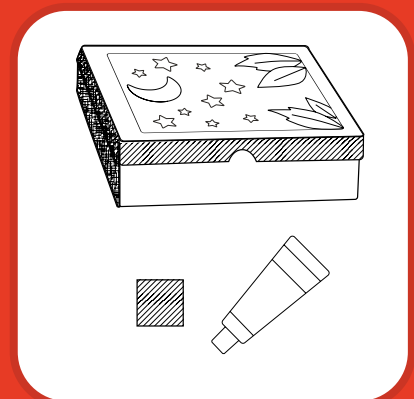

3. Cut out the side of the shoe box. This will be the opening of the lantern.

4. Glue tissue paper from the inside over the free areas on the lid and base.

5. Cut out figures* from tissue paper and glue them onto the tissue paper walls.

6. Glue the loose longer edge of the lid to the shoe box.

7. Make holes in the top edge of the shoe box.

8. Pull the string through the holes and place the LED candle at the bottom of the box.

9. Your superfit lantern is ready and lighting!
